

OVERVIEW

The University of Saskatchewan’s Academic Program Review (APR) process has been established as a cyclical process with the intent of reviewing all undergraduate and graduate programs over a 10-year period. Where possible, all undergraduate and graduate programs offered by a department will be reviewed concurrently and/or in the same year. The commitment to a cyclical review of academic programs is aligned with the standard presented by the Saskatchewan Higher Education Quality Assurance Board to “implement a periodic external program review and assessment process to ensure the ongoing currency of the program and the quality of its learning outcomes” (Quality Assurance Review Process: Program Review Standards and Criteria, 2014). ***This schedule and scope of programs to review are subject to change at the discretion of the Deputy Provost to account for competing priorities, availability of resources, and advice from college/school leadership.***
